

Working Together for Wellness

North Kingstown Prevention Coalition

The North Kingstown Prevention Coalitions receives a House of Representatives Legislative Grant from Representative Bob Craven. The coalition is delighted to be receiving funds that will help the coalition and our partners in prevention provide outreach to three populations in the community of North Kingstown; underserved youth, senior citizens, and, high school students. Our goal is to provide services in the community that will help youth be safe, healthy and reach their potential. The additional funds will make three existing programs more effective. It will allow the coalition to offer alternative activities for underserved youth, reduce the availability of unwanted or unused prescription drugs, and provide recognition to adults for their prevention efforts in our community.

What: Please join us as Representative Bob Craven presents the Legislative Grant check to the coalition.

Who: Representative Bob Craven met with coalition coordinator Kathy Yeager last year. They talked about the work the coalition does and how funding is dependent on grants. The coalition recently had a funding cut from its state grant and was applying for a continuation of the federally funded Drug Free Communities grant. Rep. Craven supports our mission to provide education and awareness around the issues of youth substance abuse and promote a healthy lifestyle to help youth be safe, healthy and reach their potential. He thought it important enough to offer the coalition an opportunity to apply for a legislative grant. If you would like more detail about the programs the grant will fund please attend the event or contact me.

WHEN: Friday, March 27, 2015 at 10:00

WHERE: The Law Offices of Robert E. Craven & Associates, 7405 Post Road, North Kingstown, RI 02852
